

# Queen 315/515

Manual, Power, PowerPlus, PowerExtra and PowerLux

Computer-controlled cold-cure molded foam is injected directly over the steel frame. This unique H2 technology provides superior and lasting comfort with an ergonomically correct body support throughout all areas of the recliner.

**Adjustable headrest**, with an infinite number of comfort positions, provides ultimate support for your neck while reading, watching television or resting.

**Anatomically correct shaped interior steel frame** with sinuous springs and a **patented built in dynamic lumbar support** system for optimal lower back support regardless of reclining position.

**Low profile hard wood seat frame** with enforced sinuous steel springs and high-density computer controlled injection molded foam provides superior seat comfort and durability.

**Effortless reclining.** Shift seating position and back rest angle using your body weight.

**Glide-lock** on both manual and power recliners.

**Smart storage** for your power supply or battery pack on power recliners.\*

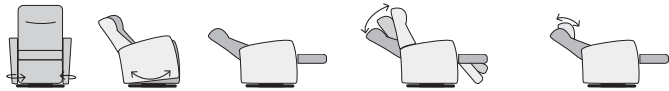

The **long footrest** can easily be unfolded by pulling the inside handle. To fold it in use the feet to press the footrest down and towards the chair and move your body weight forward while sitting.

**Clean back** profile with an easy access to the handle that turns glider locker function on and off.

The patented advance mechanism provides a **smooth gliding function** and swivel actions that easily turns 360°

**Strong and wide base** provides durability and superior stability. Only environmentally friendly water-based paint has been applied.

\* No SmartStorage on Power Extra and PowerPlus as Battery is not recommended.
